

Bridge

Specialists in contract soft furnishings for the care, education and leisure industry.

About our company

BRENDAN POCOCK
DIRECTOR

Hello, and welcome to Bridge.

Having come from a family steeped in heritage of soft furnishings, starting Bridge was my path of independence, but also keeps the family tradition going. You can still find two family run high street stores in existence, after over 100 years.

Together with our number one core value of 'Happy People' – that's Employees, Customers and suppliers, I am thankful for the values of Quality and Service, which coming from this retail background has ingrained into my blueprint for Bridge Contract Interiors.

You will find these values flowing through the team, there is a passion to please, and that makes us one of the most progressive suppliers of fire retardant curtains and blinds across the UK.

Personally, my best day at work, is joining the installers and fitting 200 blinds or hanging a lovely pair of dressed pinch pleat curtains!

If you have any issues you can always get in touch with the me - I'm on hand 24/7.

Our products and services include:

- Soft furnishings
- Tracks and poles
- Anti-ligature and reduce ligature/ weapons risk products for specialist healthcare environments
- Design expertise and site surveys
- Manufacture
- Installation

Our soft furnishings process

**Every client is different.
Not one job is the same.**

We have a diverse client base. Therefore, we understand each job is unique. From flame retardant fabrics to CQC regulations, we have a team of friendly and experienced soft furnishings specialists that are able to run through all requirements with you. Once you are satisfied with your selected furnishings our team of nationwide Bridge fitters will complete your project at a time that suits you and your establishment in a professional, non-disruptive nature.

HEALTHCARE

At Bridge we understand that complying to standards set by the Care Quality Commission are a top priority. All of our products are flame retardant. Therefore, we guarantee that the furnishings we supply will comply to CQC flame retardant standards. Let us do the leg work for you, our in-house soft furnishings specialists are on hand to support and recommend the most suitable furnishings for your environment.

For care groups with multiple homes we offer you - the Bridge We-Care portal, a furnishings management portal designed to make ordering soft furnishings simple. Instant online quoting for faster funding applications and set design schemes to maintain consistency throughout your establishments. All of this at no extra cost.

Springfield, Chocolate Works, York

We were delighted to be involved on this award-winning project. Working with the architects and interior designers, we manufactured and installed all the curtains, blinds and soft furnishings throughout the retirement village. Located on the old Terry's Chocolate Work's site, the design philosophy was to create a unique, pioneering and stimulating village with compassionate care at its heart. The building needed to facilitate the provision of safe care above everything whilst maintaining quality of life for residents, within a homely environment. Having achieved all of this, the project was named Best Care Village at the Pinders Healthcare Design Awards.

SPECIALIST HEALTHCARE

Our dedicated team love what they do - creating effective spaces that provide design integrity, function, quality and most importantly, maximising the safety of vulnerable people in specialist healthcare establishments. It is our goal to enhance the quality of life for those living and working in these environments, giving ultimate peace of mind and more time to care. We understand that projects carried out in specialist healthcare establishments need to be completed in a non-disruptive nature, which is why all of our fitters are trained in the sensitive nature of specialist healthcare.

The Priory Group, Woodbourne

Psychiatric Intensive Care Unit that offers safe wards with a homely, controlled environment. Here we installed the soft furnishings, rails and anti-ligature SafeDoors. The curtains were sewn down pencil pleat with the strings removed to reduce ligature risk.

The Priory Group, Home Farm & West View

Specialist residential service and school. We worked with the interior designer to manufacture and install all anti-ligature window dressings, rails and cushions.

STUDENT ACCOMMODATION

We are specialists in soft furnishings for student accommodation. As part of the North Western University Purchasing Consortium (NWUPC) we work on many projects across the UK with leading student accommodation and education providers. We understand that a number of student accommodation projects have to be completed in short time periods due to school holidays. Our team of soft furnishings specialists often work alongside project managers and ensure projects are completed in budget and on time.

Study Inn, Cambridge

Accommodating students attending the UK's top ranked university. We manufactured and installed curtains & tracks throughout this boutique 360 bed student accommodation. The project involved bay windows as well as standard windows, all furnished with curtains in their own bespoke design fabric. We have built a strong relationship with the luxury student accommodation providers and work alongside them on sites across the UK including Bristol, Cambridge, Coventry and Loughborough.

HOUSING

Bridge are suppliers to a number of private, council and local authorities that provide social housing and private renting. We can provide quotes from plans drawn up by architects and often supply bespoke, made-to-measure furnishings. Our experience in the housing sector has enabled us to provide all of our fitters training in the sensitive nature of some establishments within this sector. We can work closely with the management teams to ensure a non-disruptive installation and seamless project delivery.

YMCA Bristol

The Bristol Wing is a hostel located in the refurbished Grade II listed old police headquarters in the heart of the vibrant Bristol City Centre. The client wanted curtains to complement the industrial style. We specified a Panaz woven fabric throughout, with antique brass tracks.

YMCA Bath

Surrounded by the rich history and heritage in the centre of Bath, this YMCA hostel is located perfectly for exploring everything Bath has to offer. The client desired plain unlined dimout curtains in a grey material to work with their brightly painted rooms. These were made to order from stock fabric over a period of months as and when rooms were refurbished with a 7-day turnaround time, including tracks, curtains and cushions.
